For Want of Iron, You May Be Old At Thirty—Nervous, Irritable and All Run-Down—While at Fifty or Sixty, With Plenty of Iron in Your Blood, You May Be Young in Feeling and Brimming Over With Vim and Energy

### IRON IS THE RED BLOOD FOOD

That Helps Strengthen the Nerves, Restores Wasted Tissue and Aids in Giving Reserved Force and Power to the Body. Physicians Explain Why Administration of Simple Nuxated Iron Often Increases the Strength and Endurance of Delicate, Run-Bown People in Two Weeks' Time.

Old age has already sunk its talons into thousands of men and women who ought still to be enjoying the springtime and summer of life simply because they have allowed worry, overwork, nervous strain, dissipation and occupational poisons to san the iron from their blood and thereby

sap the iron from their blood and thereby destroy its power to change food into living tissue, muscle and brain. You will find plenty of people at 40 who are broken in health and stendily going

downward to physical and mental de-cay, while others s 50 are strong, active alert and seeming growing younger every year. Gne class withers and dies like leaves in autumn, while the other, by keeping up a strong power of resistance against disease, may pass the three score and ten mark with surprising health, strength and vigor.

### Ranks Growing Thinner.

Ranks Growing Thinner.

"It has often been asked how the Confederacy could maintain itself for so long a time against a foe so superior in numbers, men and resources. I cannot better answer this than to quote a portion of a sermion reported to have been delivered in Boston by a noted evangelist, the son of a federal soldier: "The truest, the purest, the finest men and women in America are south of the Mason and Dixon line. There are more pure blooded Americans south of the Mason and Dixon line than anywhere else in the country."

"I do not quote this to excite envy or ill feeling, but to arouse the admiration and emuisition of all God-loving and patriotic people.

"Our ranks are growing thinner every year, hence I appeal to all who can attend this reunion to do so, and to continue to hold these reunions as long as there survives a corporal's guard.

### Jocko Turns Water On, Floods Theater, Now Has Watchman

Jocko, the monk used by the Rigoletto brothers in the finale of their act at the Orpheum theater, now has a guard. J. Alex Boggiano has been appointed to watch Jocko for the rest of the week between showarto keep him from either setting fire to the theater or flooding the edifica with water. Monday afternoon after Jocko had done his stunt and his masters were out to dinner he came very nearly flooding the Orpheum building with Memohis arteelan water and floating away all the properties and seenery. Jocko was left apparently innocently asleep in his "dressing room." which consists of a large goods box. When the actors and stage hands ore out and the watchman's back was turned Jocko began playing with a hydrant. Of course he turned it on, and when found later a hig stream of water was flowing over the floors of the first tier of dressing rooms. The tide was stemmed, Jocko punished and all hands went to work draining out the water which was done before the temperamental actors got back to dress for the night performance.

Boggiano ventured the remark that it was lucky that Jocko didn't get into the matches. This remark brought him the appointment of watchman extraordinary for the Simian, and a repetition of Jocko's capers of Monday is considered well-nigh impossible.

This makes a full cup of shampoo liquid, enough so it is eas to apply it to all the hair instead of just to the top of the head. This, when rubbed into the scalp and onto every strand of hair, chemically dissolves all impurities. It is very soothas beneficial to both scarp and hair After rinning out the lather so created, and free from dandruff, while the hair aries quickly and evenly, developing a pright fuster and a soft fluffiness tha nakes it seem very heavy.
